NOTES:

- Thanx to everyone for an awesome race day...
- Please always check your points for any discrepancies on Thursday night meetings as Clint might make an error and not pick it up. Please also let us know if your name is spelt incorrect.
- Incident with 2 cars nearly colliding down back straight on out lap...1 ended up into wall. Please check your mirrors for people who want to come through and if you are coming through please ensure the guy in front sees you before you pass him.
- 2 incident reports against a competitor...COC asked us to sort it out. After looking at footage the 1 incident was his fault the other wasn't. Front runners please understand, it is your responsibility to find the way around a back marker. Yellow card was issued.....Please be certain of your facts when you put an incident report in as the CoC's will doubt your future incidents if "after the fact" footage shows you have been liberal with the truth.
- No-one formed up on Grid on the outside extremities of the track for 2nd heat...please
- Formation lap gaps were too big and too small. Namely...Nicholas Baines, Eugene Van Zyl, Basie Burger, Shando Hendricks, Jessie Hugget, Nieyaaz Modack, Ettiene Carstens, Ernest Leite, Ewald Weiland.
- Thanks to the people who sms'd Clint on Saturday regarding whether they are in for next heat or not. It is important that Clint gets this information as it affects the grid positions for the next race.
