MSA GENERAL CIRCULAR 3/2014

159051/144

The following addition to GCR 239 is implemented with immediate effect:

Safety Harnesses / Belts

In those series where a safety harness with minimum 75mm shoulder straps is specified in the regulations, the use of a "Hans Specific" harness with hybrid 50/75mm shoulder straps is permitted. This approval is however subject to the harness being used at all times together with an FIA approved FHR (frontal head restraint) such as the Hans Device or Simpson Hybrid.

In the event that the required frontal head restraint is not present for whatever reason, the use of a Hans specific harness with hybrid 50/75mm shoulder straps will not be permitted.

Yours faithfully,

WAYNE RIDDELL
SPORTING SERVICES MANAGER
9th April 2014
